

**Thank you so much for your interest in mural work by Sophia Buddenhagen**

*Pricing includes travel within Houston, all materials, rental equipment, assistant fees and work to completion.*

Pricing starts at \$20-\$35 per square foot

(Square Foot is determined by multiplying the height x width of the painting surface)

This will be determined once final sketch and complexity of style is approved.

**Design Deposit \$250**

This design is communicated through a digital mockup of the mural on a photo of the wall.

This deposit covers the cost of up to 3 revisions to the initial design. Changes may be made beyond the initial three sketches, but an additional design cost of \$50 per sketch may be requested. This deposit is nonrefundable but will be credited towards the cost of the overall painting after a design is decided upon.

**A 50% deposit** is required no less than 2 weeks before start date of project, balance is due on completion. This enables scheduling of your project to purchase materials and reserve necessary equipment rentals.

**Wall Preparation**

Because the longevity of the mural is dependent on the security of the surface on which it is painted, it is recommended that exterior walls be power washed one week prior to priming to ensure proper dry time. Masonry primer/sealer is recommended for brick or concrete walls that have not yet been painted.

This service can be included in the painting bid for an additional \$1/sq. ft.

The cost for your project can better be determined after we have discussed the size and complexity of your design.

Please don't hesitate to send me any questions you may have.  
I appreciate your consideration and look forward to working with you.
